Requisition # 18885720
Accession # 8100553324
Panel Name

OVA & PARASITES

OVA & PARASITES

TOXOCARA SP OVA PRESENT MODERATE (11-30) ISOSPOORA OOCYSTS PRESENT MANY (>30)
SMALL SAMPLE SIZE MAY AFFECT RESULT. FOR A ZINC SULFATE CENTRIFUGATION
METHOD, THE MINIMUM SAMPLE REQUIREMENT IS 1-2 GRAMS OF FRESH FECES.

In cases of acute or chronic diarrhea in addition to a fecal
floatation and antigen testing for ova and parasites consider testing
for viral, bacterial and protozoal infectious agents using RealPCR
(canine diarrhea panel: test code 2625; feline diarrhea panel: test
code 2627).

Withdraw

07/15/2015 **RX#: 5855** Silver Sulfadiazine 1% QTY: 1 **Provider:** Dr Michelle Brewer
Expires On: 07/14/2016 Withdraw

Apply to the skin of the infected sites every 12 hours for 7 days.

07/15/2015 **Service** Wound Care and Cleanse (Current Invoice) QTY: 1 **Provider:** Dr Michelle Brewer
Withdraw

07/15/2015 **Service** Clavamox Drops 62.5mg/ml QTY: 1 **Provider:** Dr Michelle Brewer
(Current Invoice) Withdraw

It is very important to give antibiotics as directed by the veterinarian. Not finishing all of the antibiotics prescribed to your pet can
result in an infection coming back that never truly went away and bacteria that are now resistant to the drug initially prescribed.
Please give all the antibiotics until gone, unless directed otherwise. Shake well before giving and keep in the refrigerator. Clavamox
expires 10 days after mixing with water.

07/15/2015 **RX#: 5854** Clavamox Drops 62.5mg/ml QTY: 1 **Provider:** Dr Michelle Brewer
Expires On: 07/14/2016 Withdraw
